Some bibliographic entries overlap in scope, so users should consult more than one section when searching for a specific publication. If you are searching for an item not included in this bibliography, contact the IHA office to determine if it has been added to the collection. More information about some titles may be found at Book Reviews.

The following abbreviations are used throughout: AAM—American Alliance of Museums, formerly American Association of Museums; AASLH—American Association for State and Local History; IHA—Illinois Heritage Association; pb—paperback.

Materials in the IHA vertical files also may be borrowed by members. These include pertinent articles from professional journals; information sheets; products and services information; data about museums, historic sites, and preservation management policies; and forms used in administering museums and other history-related organizations.
